

SLUDGEZAP

Technical Data Sheet

SLUDGEZAP is the biotech solution for sinks, drains, grease traps, toilets and soil stacks. Its formulation works in **three ways** to remove organic waste, food debris and fats, combining **oxygenating**, **enzymatic** and **microbial** modes of action.

Odours generated by **anaerobic** (oxygen-hating) bacteria are **eliminated**. Efficiency of grease traps are **restored**, food and organic wastes are **digested**.

SLUDGEZAP is a concentrated, flexible, sustainable solution, powerful enough to remedy **legacy problems** and long-lasting for **regular maintenance**.

USAGE INSTRUCTIONS:

Pour 1 level scoop of **SLUDGEZAP** granules directly down the drain. Effervescent action will activate the formulation and distribute the enzymes and probiotics across all interior plumbing surfaces.

- For **drains / toilets**, leave foam in place for at **least 1 hour - or overnight**.
- For **grease traps**, add directly to sink drain and continue using sink as normal.

DOSAGE GUIDE:

Light use / soiling

Heavy use / soiling

Kitchen sinks	1 scoop weekly	1 scoop daily
Floor drains	1 scoop daily	2 scoops daily
Toilets / soil stacks	1 scoop weekly	1 scoop daily
Under-sink grease traps	1 scoop daily	2 scoops daily
Underground grease traps	Contact info@thrive.eco for treatment plan	

PRODUCT INFORMATION:

Application areas:	Sinks, drains, grease traps, toilets, soil stacks	
	Ceramic, PVC, stainless steel, resin, plastics	
Product size:	1000 g	40 x 25 g doses per pack
Shelf life:	24 months	From date of manufacture
Product appearance:	Green	Granulated powder
Effective temp. range:	10 - 40 °C	
Product pH:	6 - 8	Neutral, non-corrosive
Product fragrance:	Citrus	Allergen-free fragrance
Active components:	Proteases, lipases, amylases, cellulases, 10⁹ CFU / g non-pathogenic Bacillus strains, sodium percarbonate oxygenating agent	
Hazard class (Granules):	H319	Causes serious eye irritation
	H335	May cause respiratory irritation
Recommended PPE:	Standard equipment for housekeeping services
